

Gas Field Services

Quality Policy

Gas Field Services (GFS) is a privately-owned technical services contracting company based in Central Queensland. Our primary activities are coal seam gas drilling and well servicing, and we operate in the nearby Bowen Basin as well as the Hunter Valley, New South Wales.

Gas Field Services is committed to forming and maintaining successful and enduring relationships with our clients through providing high quality products and services in the mining and gas industry. Our aim is to provide quality services to the mining industry by consistently complying with statutory and our clients' requirements.

Gas Field Services is committed to meeting the needs and expectations of our clients by implementation of a quality management system that complies with the requirements of ISO9001:2008. This will be achieved by adopting the following objectives:

- o Understanding our clients' needs and expectations and providing products and services that consistently meet or exceed client requirements
- o Complying with statutory obligations, standards, specifications and codes of practice relevant to our business;
- o Providing suitable resources for implementation and maintenance of the quality management system
- o Engaging training and supporting suitable qualified and experienced people
- o Identifying, reporting, investigating and resolving nonconformances and taking action to prevent recurrence
- o Continually measuring and evaluating performance and taking action to improve outcomes
- o Reviewing the system, including these objectives, for suitability and effectiveness and making appropriate changes in order to continuously improve the system.

Gas Field Services personnel are expected to:

- o Assist and cooperate in ensuring that this policy is followed, and
- o Actively participate in the adherence of this company to the achievement of the goals and objectives of this policy.

Stephen Burt,

Managing Director
